## SUMMARY STATEMENT

I am a fast-learning, creative individual with a research-driven approach. I aim to prove my value and talent in a disruptive tech company, advance my skills through mentorship, and tackle any challenge with confidence. My expertise in computer science spans across networking, cloud, IoT, web, distributed systems, and AI.

---

## PROFESSIONAL EXPERIENCE

### Orbitax Bangladesh Limited

Mar 2022 - Present

#### Associate Software Engineer

During this time, I focused on enhancing the functionality of the system by implementing essential business logic. Additionally, I developed a few important features to improve the overall user experience. To ensure optimal performance, I made significant improvements to the administration and security. Lastly, I worked diligently to identify and squash critical bugs that were impacting system stability and reliability.

### Orbitax Bangladesh Limited

Sep 2021 - Feb 2022

#### Software Engineer Intern

Ported an existing .NET microservices in Go for R&D purposes, which decreased response latency by 60% and reduced memory usage by 70%.

### It's FOSS

Dec 2020 - Feb 2021

#### Tech Journalist

Covered important news about the Free and Open-Source Software community.

---

## EDUCATION

### Shahjalal University of Science and Technology

Bachelor of Engineering in  
Software Engineering  
CGPA - 3.34 (160 credit)

## CERTIFICATIONS

- Cloud Engineering with Google Cloud
  - Blockchain by the University at Buffalo
  - Deep Learning by [DeepLearning.AI](#)
  - Penetration Testing and Ethical Hacking by Cybrary
  - DFIR by [BASISTECH LLC](#)
-
